MOVEMENT COLLECTION

MADE IN JAPAN

Akita Epson Factory

Epson's sprits come from the **World First Quartz Watch** that was launched in 1969. After launching it, Epson has developed a lot of world first products. Epson is always trying to create something new and always keeping one step ahead of the others.

Seiko Epson Corporation Shiojiri Office

Automatic Assembly Line

Our movements are produced on automatic assembly lines to ensure high quality and high efficiency. We support our customers' ideal watchmaking with high quality movements.

Sustainability

To achieve sustainability and enrich communities together with our customers and partners, we are practicing sustainability management to fulfill our social responsibility and create shared social value.
